P.O. Box 452 Beaver Dam, WI 53916

Egg-ceeding Expectations Since 1912

Sunnyside  
Hatchery LLC

No Turkey orders will be mailed prior to April 2 (Pick up or delivery only prior to date)  
Orders shipping outside of WI may be shipped via Spee-Dee Delivery Service

All NSF returned checks will result in a \$50 service charge

All new customers must pay for their order before any birds are shipped

### Sunnyside Cancellation Policy

All Cancellation requests for orders that are picked up/delivered/mailed on  
Tuesdays and Wednesdays must be submitted to Sunnyside prior to 8am on the  
Friday before the order is filled. For all orders that are picked up/delivered/mailed  
on Thursdays, these requests must be submitted prior to 8am Monday.

All orders valued at \$500 or more that are requested to be canceled must notify  
Sunnyside a minimum of one week prior to the order being filled.

**SUPPORT YOUR LOCAL BUSINESSES BY ORDERING THROUGH OUR DEALERS!**

Please Utilize Sunnyside's Chick Dealer Network- The customer  
(lower prices), the chicks (less stress) and the hatchery (lower  
shipping costs) all benefit from utilizing this unique opportunity!

## SUNNYSIDE JUMBO BROILERS

Our fast-growing jumbo broilers, when managed properly, should reach 6-7 lbs in only 8 weeks. These birds are known for their strong legs, plump breasts, excellent feed conversion and livability.

Available year round

## SUNNYSIDE RANGER

This slower-growing broiler will take 9-11 weeks to finish and should reach 5-6 lbs in that time. Perfect for pasturing and "chicken tractors".

Available March 19 through August 14

## HERITAGE BREEDS

### BARRED ROCKS

Recognizable by their contrasting black and gray plumage, the dual purpose Barred Rock has been a favorite brown-egg layer on American farmsteads for over a century.

### RHODE ISLAND REDS

This cherry-colored beauty from the Northeast has contributed to the development of many of today's commercial brown egg hybrids. Another great option for both eggs and meat.

### BUFF ORPINGTONS

A traditional English breed that's both a dependable layer of brown eggs and a fine, white-skinned table bird. They're striking orange-buff plumage will set them apart from the rest of your flock.

### GOLDEN LACED WYANDOTTES

Developed in Wisconsin in the 19th century, this dual-purpose brown-egg layer is noted for their stunning combination of gold and black plumage along with their frostbite-resistant rose combs.

### BROWN LEGHORNS

This native of Italy brings you excellent white-egg production in a beautifully colored package. Hens are penciled in straw and black while the males look very similar to the rooster on a box of cornflakes!

### SPECKLED SUSSEX

An English dual-purpose favorite, this medium-sized, mahogany-colored bird has many of its feathers tipped with white. An excellent layer of light brown eggs.

### DELAWARE- NEW BREED BURST

An American original, these dual-purpose beauties have a white base plumage with gray barring in their hackle and tail feathers. Delaware pullets will mature into dependable layers of brown shelled eggs.

Heritage Breeds Available March 5 through Sept 4  
**(920) 887-2122**

## DUAL PURPOSE

### BROWNS

Our Brown hens will produce large volumes of high-quality, brown-shelled eggs starting as early as 18 weeks of age. The female is known for her quiet temperament and hardiness. Males are lighter in color and make excellent fryers.

Available March - December

### SPECIAL BLACKS

A Sunnyside original- the ultimate dual-purpose hybrid. The females are excellent brown egg layers and males should finish at over 6 pounds in about 20 weeks. The preferred bird for many ethnic markets!

Available year round

### REDS

These hybrids are similar in size and production capabilities to our Special Blacks, just with a red plumage instead of black. Supplies are limited.

Available year round

## WHITE LEGHORN

Our premium producer of pearl white eggs. Pullets are ready to lay at 20 weeks and you can expect excellent feed efficiency, livability, and shell quality from these birds.

Available March - December

## HOBBY FARM ASSORTED

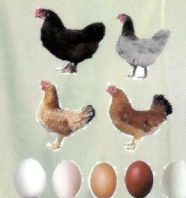

Hatchery choice of jumbo broilers, along with everything else we offer of our large breed chicks. We will do our best to provide you a good variety!

Available March 5 through Sept. 4

## COLORED EGG LAYERS

### SUNNYSIDE RAINBOW EGGERS

Don't mistake these for Araucanas- Rainbow Eggers are a colorful collection of commercial layer strains from Europe that will fill your egg basket with green, blue, chocolate brown and cream-tinted eggs. Supplies are limited.

### CUCKOO MARANS

This barred dual-purpose French breed is known to produce extremely dark colored eggs and makes a quality table bird as well. Supplies are limited.

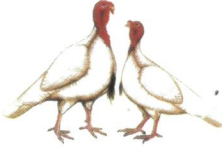

Available March 5 through Sept. 4

**ALL PRICES INCLUDE DELIVERY TO**

## TURKEY POULTS

### BROAD BREASTED WHITE

If it's a fast-growing turkey with great livability and excellent feed conversion you seek, the Broad Breasted White is the one for you. Females will grow to 16-18 lbs. in 14-16 weeks, while Toms should finish out at 30 lbs. in 18-20 weeks.

### BROAD BREASTED BRONZE

While these beautiful turkeys resemble their wild cousins in plumage, their size and confirmation are more in line with our Broad Breasted Whites. Our traditional bronze does excellent in free range and other alternative systems as they make great foragers.

All Turkey Poults Available March 12 through August 14

## A SUNNYSIDE UPDATE

**For over 112 years, Sunnyside Hatchery has been a fixture on the poultry landscape in Wisconsin and throughout the Midwest. 2024 marks the fifth year the hatchery has been owned and operated by the Levendoski family since purchasing it from its founding family- the Wilke's- in 2019. We inherited a great customer base, as well as an awesome network of dealer partners, and it's our hope to keep working with all of you for many years to come!**

**While we continue to offer some of the poultry industry's most dependable strains of commercial meat and egg-laying genetics, Sunnyside is excited to "tweak" our lineup of available chicks each year. This year, we say goodbye to Salmon Faverolles from our "Heritage Breeds" and welcome a new heritage breed- Delawares. Additionally, we will be stepping away from offering ducklings for now as logistical issues over the past couple of years have challenged our promise of dependability to our customers.**

**While things might change each year, Sunnyside Hatchery still aims to provide each customer a positive customer experience, along with quality baby chicks at affordable prices. We value you and your input, so if you have any questions, or feedback, don't hesitate to reach out to us. Thank you for your business- it is greatly appreciated.**

Sincerely,

Nick, Liz, and the Sunnyside Hatchery Team

## VITAMINS AND SUPPLEMENTS

**GroGel<sup>™</sup> Plus**

GroGel Plus- Mixed with water and the granules will expand into a soft, palatable gel to supply chicks with the crucial nutrients and beneficial bacteria they need to get off to a great

start! Each 7 gram packet contains enough GroGel Plus for 100 baby chicks. \$3.00/pack

**STRESEEZ<sup>®</sup> PLUS**

Streseez Plus- A water-dispersible supplement of essential vitamins, minerals and electrolytes for poultry in all stages of life. Each 6 oz. pack will

treat up to 128 gallons of water. \$6.50/pack

## STARTED PULLETS

Sunnyside offers ready-to-lay pullets, both white egg and brown egg varieties, that are available for pick up in July and August each year. We start taking orders in late March. Get your order in soon as supplies are limited!

## MANAGEMENT TIPS FOR BABY CHICKS

Make sure their environment is warmed up to 90° F upon their arrival. The temperature can be reduced by 5° F per week until you reach 70° F. Give your birds plenty of space and remember that comfortable chicks will be spread out evenly under the light/brooder. One 250-watt lamp for every 80 chicks, placed 18-24 inches off the floor, is a good rule of thumb.

Litter must remain clean and dry. Wood shavings, peat moss and rice hulls work best. Avoid using newspapers and straw for bedding as these can be susceptible to mold and can become slippery, which may cause leg problems. Circulate fresh air in the growing area to prevent ammonia build up. Young chicks can be protected by a draft guard early on to protect them from being chilled.

Feed and water chicks immediately upon arrival. Provide at least one gallon of water per 50 chicks. For best results, include a vitamin and electrolyte powder in their water founts. A fine grade grit may be sprinkled on top of their feed- this will aid in their digestion.

## BE CAUTIOUS WHEN HANDLING POULTRY

Live poultry can be a source of potentially harmful bacteria. The following are safe handling tips:

- Thoroughly wash hands with soap and water after handling poultry or anything in their environment.
- Clean poultry equipment frequently.
- Keep live poultry and their equipment outside of your home.
- Do not eat or drink around poultry or their environment.
- Supervise children when they handle poultry. Make sure that they do not put hands or fingers into their mouths.
- Young children under the age of five and those with weakened immune systems should be cautious when handling poultry.
- Do not nuzzle or kiss poultry.
